Subject: Microsoft Settlement

To Whom It May Concern:

Let's settle this case and move on. All the government's case has done so far, is to hurt the public, which it was suppose to protect. It would be nice if the government would explain, just how all of us will be better off as a result of their case. Are they going to send us a check for dollars lost in stock value because of their actions?

It appears that the Justice Department should have been focused on Enron, which has hurt the American public much more than Microsoft ever could. Maybe microsoft should have contributed more.

Just do It.

Sincerely,

John M. Snively, Jr.
